

Liz McDonald, C.E.T.

I have served on Council since 2007 and, prior to my election as a Councillor and Second Vice President, I served on the Registration Board for four years. During my tenure on Council, I have had the opportunity to participate on the Legislation Committee and the National Environment Committee.

Since graduating from NAIT, I worked in the engineering consulting field for 17 years with the majority of my experience in the environmental area. I am currently the Area Environmental Manager for the Western Canada District of Peter Kiewit Infrastructure Co. with responsibilities associated with environmental management for major construction projects in Alberta. Prior to my position with Kiewit I was the Corporate Environmental Manager for Lilydale Inc. with responsibility for environmental issues for six primary poultry manufacturing facilities and three hatcheries across western Canada.

I am grateful for the opportunity to have participated in the process culminating in proclamation of the legislation enacting ASET to be a self-regulatory professional association.
