INFORMATION SHEET FOR PERMIT TO PRACTICE APPLICANTS/HOLDERS

Engineering and Geoscience Professions Act

Part 8, Division 3 Professional Technologists

Registration of ASET Permit Holders

- 90.4(1)** ASET Council shall approve the registration as an ASET permit holder of a partnership or other association of persons, or of a corporation incorporated or registered under the *Companies Act* or continued, incorporated or registered under the *Business Corporations Act*, that has applied to ASET Council and is eligible under this section and the professional technologist regulations to become registered to engage in the practice of engineering or geoscience as an ASET permit holder within the scope of practice of those professional technologists who are responsible for the practice of the ASET permit holder.
- (2)** A partnership or other association of persons or a corporate that applies to ASET Council is eligible to become registered as an ASET permit holder under subsection (1) if it satisfies ASET Council that it complies with this Act and the professional technologist regulations.

Annual Certificate

- 90.5(1)** A professional technologist or ASET permit holder engaged in the practice of engineering or geoscience shall pay to ASET the annual fee prescribed under ASET bylaws.
- (2)** Subject to this Act, an annual certificate entitles the professional technologist or ASET permit holder to engage in the practice of engineering or geoscience, as the case may be, during the year for which the annual certificate is issued within the scope of practice of the professional technologist or ASET permit holder.

Use of stamps, seals and permit numbers

- 91.5(2)** An ASET permit holder shall affix its permit number on documents or records in accordance with the professional technologist regulations.

Exemption from municipal license

- 91.6** No municipality has the power to require any professional technologist or ASET permit holder to obtain a license from the municipality to engage in the practice of engineering or the practice of geoscience.

INFORMATION SHEET FOR PERMIT TO PRACTICE APPLICANTS/HOLDERS

Professional Technologists Regulation

Part 5 Registration of Permit Holders

Requirements for issue of permit

27(1) ASET Council may issue to a partnership, corporation or other entity a permit to practice engineering or geoscience in its own name within the scope of practice of those professional technologists who are responsible for the practice of the ASET permit holder if

- a) an application is made to the ASET Registrar in the form and containing the information required by ASET Council,
- b) the application is accompanied with the fees prescribed by ASET Council pursuant to the ASET bylaws,
- c) ASET Council is satisfied that the practice will be carried on under the direct personal supervision and responsibility of a full-time permanent employee or member of the partnership, corporation or other entity who is also a professional technologist and who is qualified by education and experience in the field of engineering or geoscience in which the partnership, corporation or other entity intends to engage, and
- d) The professional technologist certifies to the satisfaction of ASET Council that the partnership, corporation or other entity has in place and will follow a professional management plan that is appropriate to the professional technologist's professional practice.

QUESTIONNAIRE FOR CONTRACT PROFESSIONALS

The *Professional Technologists Regulation* requires that the professional technologists serving as responsible members under an ASET Permit to Practice be full-time permanent employees or members of the applicant organization. However, a professional technologist may serve as a contract employee and responsible member for more than one organization. In this case, the contract professional must directly and personally supervise and control the work he or she is taking responsibility for within each organization.

Contract professionals serving as responsible members must complete the following questionnaire.

Describe the characteristics of the contract between the professional and organization (select all that apply):

- The contract between the organization and the professional is in writing.
- The contract clearly states that the professional is in a position to examine all work being done within his or her approved scope of practice and determine what constitutes the practice of the profession within the organization.
- The contract clearly states that the professional has the authority to establish policies and procedures for work being done within his or her approved scope of practice.
- The contract clearly states that the professional has the authority to audit the records of the work being done within his or her approved scope of practice to ensure that established policies and procedures are being adhered to.
- The contract clearly states that the professional has the authority to thoroughly review the work being done within his or her scope of practice to ensure that he or she is satisfied and can take professional responsibility for the work.
- The contract clearly defines the frequency and method(s) by which the professional is in contact with the firm.

Describe the professional's working relationship with the organization (for example, minimum hours of work per week):

I hereby certify that the above statements are true:
